

## **ProTrans International® Announces Recording 1,000,000 Load I.D.'s**

**INDIANAPOLIS, INDIANA, MAY 19, 2011:** ProTrans International, Inc., marked a logistics milestone recently as it recorded its 1,000,000th load I.D. as logged on ProTrack, a proprietary software program of ProTrans International. The accomplishment culminates 18 years of the company offering innovative supply chain management solutions for a growing group of customers.

For ProTrans, the one million figure isn't just a number, but an indication of how fast the company is growing. "The goal is to grow twenty percent each year," said John Ousley, Director of Transportation for ProTrans International. "Since I started here nine years ago, we've more than tripled in size. Which is impressive, because this growth has happened during a virtual crumbling of our economy. In spite of that, we've made it through and still continue to grow." Ousley went on to state, "Two million should come sooner than the first million."

ProTrans was founded on the philosophy of promoting a new level of professionalism, creativity and innovation in the transportation and logistics industry. By staying committed to customers, and being on the cutting edge of technology, the ProTrans management team is confident the company will continue to grow and exceed expectations.

### **About ProTrans International, Inc.**

With nearly 600 employees and over \$150 million in annual revenues, ProTrans International is dedicated to providing supply chain management solutions that optimize customers' time, money and resources. From its origins in freight consolidation, ProTrans has strategically evolved into a full-spectrum logistics consulting enterprise, offering world class expertise backed by industry-leading technology, inventive processes and a committed team of experienced customer support professionals. Headquartered in Indianapolis, IN, ProTrans has been selected twice as Ernst & Young's Entrepreneur of the Year and was chosen as one of *Inc.* Magazine's Fastest-Growing Companies.
