

For Immediate Release

ProTrans Expands: Newest Center in Milwaukee

Indianapolis, IN (June 22, 2015) – Effective June 22, 2015 ProTrans has expanded its consolidation center network to Milwaukee by opening a facility located at 909 W. Carpenter Ave., Milwaukee, WI 53221.

In partnership with Sutton Transport, ProTrans' newest consolidation center offers customers 8 dock doors and provides expanded coverage across the north central United States.

"In opening the Milwaukee facility ProTrans is able to continuously work volumes in both Milwaukee and the Chicago area (Markham IL). Previously, the Wisconsin business would go to Markham and be processed there the following morning. This facility allows us to process our customers' business as soon as it gets back to the center and be shipped to our service centers up to 10 hours earlier each day!" said John Ousley, Director of Consolidation Operations for ProTrans.

"The opening of the Milwaukee Center allows ProTrans to continue to improve transit times from suppliers to our customers; we are always mindful of ways to meet their changing needs." – Chris Blunk, Chief Operations Officer with ProTrans
