

**For Immediate Release**

**ProTrans Laredo, TX facility passes new International Organization for Standardization (ISO) 9001:2015 Certification**

**Indianapolis, IN (January 5, 2017)** – ProTrans is proud to announce our Laredo Center has passed the new ISO 9001:2015 quality management system certification.

“As an ISO registered organization, our Quality Management system is comprised of a dynamic series of guiding principles and procedures to support organizational development and sustainable continuous improvement programs throughout ProTrans and extending to our customer’s supply chain network” – Janet Bautista Smith, Director of Quality and Continuous Improvement

“ISO 9001:2015 is even less prescriptive than its predecessor, focusing instead on performance. We have achieved this by combining the process approach with risk-based thinking, and employing the Plan-Do-Check-Act cycle at all levels in the organization.” – Nigel Croft, Chair of the ISO subcommittee that developed and revised the standard

**About ISO 9001:2015**

ISO 9001:2015 sets out the criteria for a quality management system and is the only standard in the family that can be certified to. It can be used by any organization, large or small, regardless of its field of activity. There are over one million companies and organizations in over 170 countries certified to ISO 9001.

This standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement.
